- Easy to formulate
- Beverage-friendly

cellflo<sup>®</sup>6 is a novel, patented, clinically studied, gallate-enhanced oligomer extract sourced from green tea (*Camellia sinensis*) that contains specific and patented levels of galloylated procyanidins. In a broad range of consumer products, cellflo<sup>®</sup>6 can provide enhanced functionality targeted at improved endurance, enhanced exercise recovery, better blood flow/circulation and non-stim energy.

cellflo<sup>®</sup>6 provides many of the benefits associated with green tea catechins. Among these are support for exercise recovery, muscle recovery, cardiovascular health, metabolic health and weight management.

cellflo<sup>®</sup>6 is a highly experiential ingredient that can enhance the way consumers respond to just about any product you are formulating. That feeling can help build your brands and drive repurchases.
