†Compared to baseline

As men become more proactive about maintaining optimal health, testosterone levels are increasingly top of mind. TestFACTOR® Sexual Wellness & Longevity, the subject of 4 randomized controlled trials, has been clinically shown to raise serum levels of both Total and Free Testosterone in healthy male subjects\*. The latest clinical findings highlight TestFACTOR's impact across various dimensions of sexual health, showing enhanced performance and increased satisfaction.\* Additional benefits include reduced fatigue and improved overall strength, making it a comprehensive solution for men's health.

TestFACTOR harnesses the power of two potent botanical extracts rooted in Ayurveda: East Indian Globe Thistle (*Spaeranthus indicus*) and Mango Tree Bark (*Mangifera indica*). These botanicals are carefully standardized into a multi-patented formulation, delivering a highly effective solution for both sexual wellness and longevity solutions.

Whether incorporated into men's health products or sports nutrition formulas, TestFACTOR is designed to meet the demands of today's health-conscious male consumers.

# CLINICAL SUPPORT FOR IMPROVED SEXUAL HEALTH

In a clinical study that evaluated men's sexual health, sixty healthy, non-obese, recreationally active men took either 325 mg/day TestFACTOR or a matching placebo for eight weeks. Key outcome measures included biomarkers for testosterone (Total and Free), dihydrotestosterone (DHT), testosterone-to-estradiol ratio.

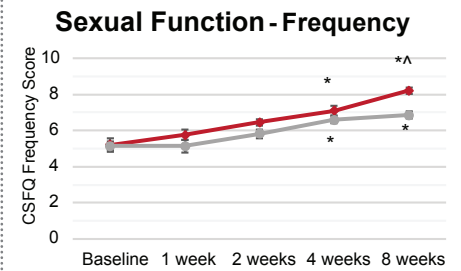

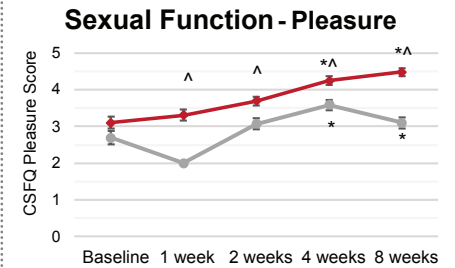

Participants also completed validated questionnaires, including a Change in Sexual Function Questionnaire (CSFQ), the Chalder Fatigue Scale (CFQ), Perceived Stress Scale (PSS), Athens Insomnia Scale (AIS) and the SF-36 vitality scale. Physical assessments included grip strength and body composition (DEXA).

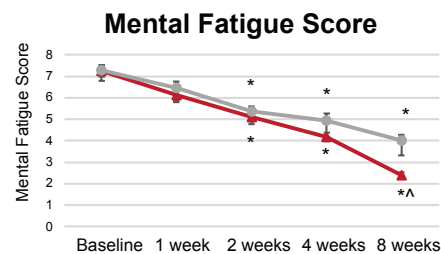

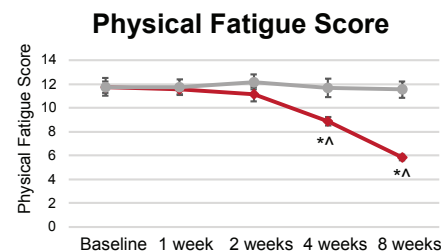

## TestFACTOR Significantly Improved Total and Free Testosterone

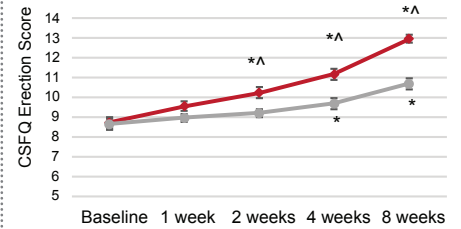

## TestFACTOR Significantly Improved Sexual Function Across Numerous Domains

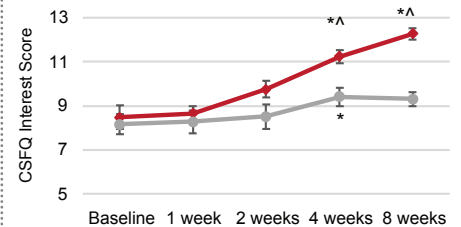

## TestFACTOR Increased Mental and Physical Energy

## Sexual Function - Erection

## Sexual Function - Interest
